Yesterday too, I had discussions with Major-General Augustin Bizimungu, Commander of the Rwandan Armed Forces. In a moment, I shall tell you something brief about our discussion; it was our first meeting at this time, I mean during this time of war. They said to themselves: "But why don't we meet with the headquarters staff of RTLM to have discussions with them? So, we can say that the headquarters in charge of operations at the war front had discussions with the headquarters of broadcasting; we shall inform you of the outcome of that meeting." (Kantano Habimana, RTLM, 9 June 1994).
